To provide every electronic engineer
with professional Digital Oscilloscopes

Updating the SPD 3000 firmware

The firmware update for the instrument is upgraded with a fixed name file via PC management software with USBTMC. The upgrade method is below:

Upgrade in normal Interface

1. Using EasyPower installed on your PC, establish a USB connection to the power supply, verifying the connection on the EasyPower software.

2. Click Version and then choose Upgrade in the drop-down menu to enter the USB firmware upgrade dialogue. See figure 1:

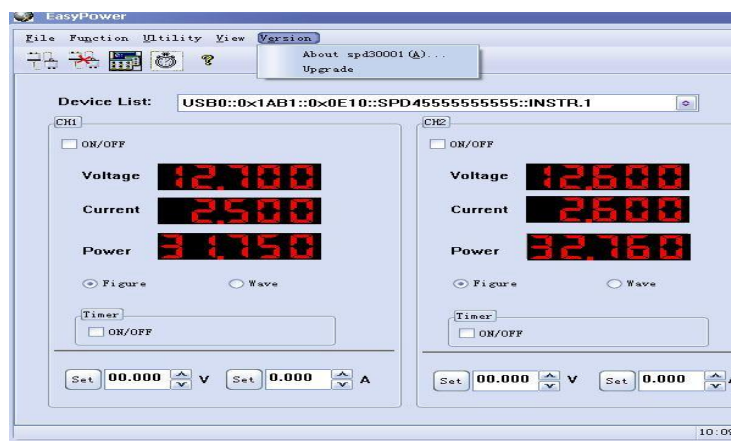

Figure 1

3. Figure 2 shows the firmware upgrade dialogue. Click file choosing icon ,and then select the file to be upgraded which must have a file extension type .ugf.
